Microbial resources for a sustainable olive oil system and a healthier Mediterranean food:  
from by-products to functional food

**WELCOME  
TO THE  
WORLD OF  
OLI4FOOD**

## >>> READ MORE

We are excited to send you this first newsletter issue and to be able to share our first updates on the OLI4FOOD project.

Our goal is to foster new advancements and share knowledge about olive-based food products, combining research, training, and cultural exchange. Together, we aim to explore new possibilities of olive-derived products, promoting both innovation and tradition.

To keep you updated on our progress and activities, we will be launching a newsletter every quarter. Each edition will feature news, updates on project milestones, upcoming events, and opportunities for engagement.

Don't miss out on the latest news and developments! Subscribe to our newsletter through the official OLI4FOOD project website: <https://oli4food.eu/>

Thank you for joining us on this exciting journey. Stay tuned for more!

# OLI4FOOD NEWS

## »»» FIRST MEETING OF OLI4FOOD PROJECT PARTNERS HELD IN ISTAMBUL (TURKEY)

The first meeting between the OLI4FOOD project partners has been held during the 26th and 27th of November 2024 at the facilities of Istanbul Technical University (ITU). This meeting marked an important starting point to coordinate the project activities and strategies focused on producing, on an industrial scale and based on the use of selected microbial pools, functional olive-based products in order to promote access to safe and affordable products, valorising the concept of a healthy Mediterranean diet taking into account the identity and diversity of cultures and food systems in the different regions of the Mediterranean area.

During the meeting, the leaders of the different work packages presented their progress in the project. The main objectives were discussed, and the next steps were defined to advance the implementation of the project.
